

## User Fee Schedule

---

Naperville Public Library assesses fees to recover the costs for photocopying and printing and assorted supplies available in the computer labs. This policy details the amount of fees charged to Naperville Public Library cardholders.

Fees covered under this policy include user fees associated with photocopy, printing, and fax services, as well as supplies available for use in the computer labs. Not covered under this policy are other fees or fines such as those associated with overdues, the replacement of lost or damaged materials, meeting room rental, interlibrary loan fees, and exam proctoring. Fees assessed for other services are included in the policies authorizing those services.

Fees are charged using the User Fee Schedule that is reviewed annually by the Naperville Public Library Board of Trustees.
